GEDIMINAS VALEVICIUS

address: 171 Glebemount, Wicklow Town, Co. Wicklow
mobile: 0857 646 370 email: **gediminas.valevicius@gmail.com**

Professional profile

A driven, ambitious and high-achieving Computing graduate with an unequivocal passion to forging a successful career as a Software Developer. Committed to applying good programming practices to design, code and build systems and software to improve stability, reliability and performance. Quick to familiarise with new coding conventions, the latest technologies, and industry developments while demonstrating an analytical approach to solving complex problems. Keen to learn and able to multitask with the organisation and time management required to complete assignments on time and to high standards. An outstanding individual who specialises in c# .net development.

Key technical skills

● System Analysis ● Project Planning ● AGILE SCRUM development ● Iterative Design ● HTML● JS
● Bootstrap ● SQL ● T-SQL ● ASP .NET MVC ● NHibernate ● REST ● NUnit ● TFS ● Git ● C#.net

Academic Application Projects:-

Android   Flashcards - developed using Android Studio, Java and SQLite

Web-based Enterprise E-Voting System - designed using Java 2 EE and SQL

Java Standalone   PKG-painting and decorating - coded using Java Swing and SQL

Education and qualifications

BSc in Computer
Science 2.1 (2015)   *Institute of Technology Tallaght Dublin (*2015)

Subjects: Software Development, System Analysis, Computer Architecture, Business Information Systems, Web & User Experience, Operating Systems Fundamentals, Communications, Visual Design, Web Design & Development, Database Design and Programming, Networking, Management Science, Object Oriented Analysis and Design, Algorithms & Datastructures, Operating System, Logic & Problem Solving

FETAC Level 6   **Computer Portfolio Course**, *Bray Institute of Further Education* (2010)

Work experience

Dec 2017 – May   **Spanish Point Technologies**
2018   **C# .net Developer**

Key Achievements:

  I was working as part of .net software development team, working on the latest Microsoft based development technologies including C#, ASP.Net, JavaScript, Bootstrap and SQL Server. As part of this challenging role, I gained experience in developing complex web-based solutions for their local and international clients as well as had an opportunity to broaden my skills to other key Microsoft technologies including Microsoft Azure, Share Point and Dynamic CRM

Apr-Jun 2015   **Bentley Systems International Limited**
                      Junior Software Developer Intern

Key Achievements:

- Gained experience in acquiring a thorough understanding of clients' business requirements and technical needs using remarkable interpersonal and communication skills to maintain a high level of professionalism and interface effectively at all levels including global teams
- Used critical thinking skills to analyse operational feasibility and review current systems, and sound decision making skills to contribute suggestions on suitable software solutions and ideas for improvements
- Teamed up with analysts/designers participating in AGILE Scrum and XP methodology learning to create plans for developing effective software solutions
- Acquired first-hand knowledge of testing developed solution in a controlled environment when working on bugs and retested solutions ensuring appropriate integration into existing systems and that they were in sync with clients requirements

Work experience cont.

Previous experience:-

2009   **COMPUTER TECHNICIAN**
                   Camara Education Limited

Personal details

Driving Licence: Full/Clean

Languages: English and Russian (Fluent); Lithuanian (Native)

Interests: Yoga, Healthy Eating and Living Habits, Books and Movies
